### **ADDITIONAL FUNCTIONS**

Performs basic housekeeping, laundry, and maintenance tasks associated with maintaining EMS station, ambulances, and related facilities

Provides assistance to other employees or departments as needed Performs other related duties as required

### **MINIMUM QUALIFICATIONS**

High school diploma or GED; supplemented by completion of an Emergency Medical Technician training program and completion of coursework in emergency vehicle operations and extrication; or any equivalent combination of education, training, and experience which provides the requisite knowledge, skills, and abilities for this job. Must possess and maintain valid TN Emergency Medical Technician License. Must possess and maintain valid Healthcare Provider Basic Life Support certification or equivalent. Must possess and maintain a valid Tennessee driver’s license with appropriate endorsement.

### **PERFORMANCE APTITUDES**

**Data Utilization:** Requires the ability to review, classify, categorize, prioritize, and/or analyze data. Includes exercising discretion in determining data classification, and in referencing such analysis to established standards for the purpose of recognizing actual or probable interactive effects and relationships.

**Human Interaction:** Requires the ability to provide guidance, assistance, and/or interpretation to others regarding the application of procedures and standards to specific situations.

**Equipment, Machinery, Tools, and Materials Utilization:** Requires the ability to operate, maneuver and/or control the actions of equipment, machinery, tools, and/or materials used in performing essential functions.

**Verbal Aptitude:** Requires the ability to utilize a wide variety of reference and descriptive data and information.

## **Rutherford County, Tennessee • Emergency Medical Technician - Basic**

---

**Mathematical Aptitude:** Requires the ability to perform addition, subtraction, multiplication, division, and basic algebra; the ability to calculate decimals and percentages; the ability to utilize principles of fractions; the ability to interpret graphs; and the ability to perform calculations related to drug dosage and drip rates.

**Functional Reasoning:** Requires the ability to carry out instructions furnished in written, oral, or diagrammatic form. Involves semi-routine standardized work with some latitude for independent judgment concerning choices of action.

**Situational Reasoning:** Requires the ability to exercise judgment, decisiveness and creativity in situations involving evaluation of information against measurable or verifiable criteria.

### **ADA COMPLIANCE/PHYSICAL DEMANDS ANALYSIS**

**Physical Ability:** The work environment involves high risks with exposure to potentially dangerous situations or unusual environmental stresses which require a range of safety and other precautions. This classification works in an environment that requires physical stamina and potential exposure to hazardous and stressful situations.

Employees are constantly required to stand, walk, sit, and key information into a computer. Employees must be able to operate all equipment. Employees will frequently perform duties in confined spaces.

Tasks require the ability to exert heavy physical effort in heavy work, with greater emphasis on climbing and balancing, but typically also involving some combination of stooping, kneeling, crouching, and crawling, and the lifting, carrying, pushing, and/or pulling of moderately to extremely heavy objects and materials (20-125 pounds); may occasionally involve even heavier objects and materials (up to 200 pounds).

Tasks include walking, running, climbing stairs, standing, crouching, and crawling unassisted up to 12 hours in a work shift, and in some emergency situations may require prolonged periods of walking or standing for up to 24 hours without relief.

Due to the unpredictable and potentially life-threatening nature of emergency work, all employees must be able to perform the full range of physical motion and may be expected to run short-medium lengths, including up or down terrain, at any time, and to have the physical and mental ability to assist in given situations.

Employees must be able to reach, bend, squat, push or pull, crouch, and crawl frequently. Employees must be able to perform all functions of an emergency technician, with or without reasonable accommodation. Employees within this classification are considered essential to the safe operation of the ambulance department.

Employees are to work as scheduled. Employees must be able to work various shifts, extended shifts, weekends, and holidays. Employees within this classification are subject to movement to alternate duty locations, such as hospitals, other stations, and based on agency need.

**Sensory Requirements:** Employees must be able to finger, grasp, and have sensation in their hands. Employees must have no restrictions to fumes, chemicals, or smells. Employees must have visual acuity not worse than 20/40 corrected in each eye and peripheral vision of 70 degrees horizontally in each eye. Employees require the ability to hear and differentiate sounds, with or without mechanical assistance.

Employees must have hearing in a pure tone average of not worse than 30 decibels (dB) 500, 1000 and 2000 Hertz (Hz), with or without mechanical assistance. Employees must not have hearing worse than 45 dB at 3000 HZ or 55 dB at 4000 Hz in each ear.

Some tasks require the ability to perceive and discriminate visual and auditory cues or signals. Some tasks require the ability to communicate orally. Employees must be capable of issuing clear oral commands that can be heard and understood in loud environments.

**Rutherford County, Tennessee • Emergency Medical Technician - Basic**

**Environmental Factors:** Performance of essential functions may require exposure to adverse environmental conditions, such as dirt, dust, pollen, odors, wetness, humidity, rain, fumes, temperature and noise extremes, machinery, vibrations, electric currents, traffic hazards, bright/dim light, hazardous materials, toxic agents, violence, disease, or pathogenic substances.

**.PHYSICAL DEMANDS ANALYSIS**

**1. STANDING AND WALKING**

**Tasks:** walking to patients, walking to and from ambulance

**Surface:** Tile, carpet, asphalt, gravel, dirt, mud, snow, etc.

**Estimated Total Hours:** varies **Maximum Continuous Time:** 14 hours

**2. SITTING**

**Tasks:** Driving/riding to calls, sitting in ambulance during patient care, off-time between calls

**Estimated Total Hours:** varies **Maximum Continuous Time:** 2 hours

**3. LIFTING/CARRYING**
